1	i am not a particular fan of the candidate speeches	Oct 9, 2012 8:18 PM
2	More involvement for the delegates. We need to be active participants not passive observers.	Oct 5, 2012 9:21 AM
3	need more time with roundtable discussions and need to actively discuss the issues brought up at the same session or at subsequent sessions	Oct 4, 2012 11:58 AM
4	None	Oct 3, 2012 9:14 PM
5	Examples of program options in different practice settings, ways that universities and tertiary centers can partner with smaller practice settings, synergies	Oct 3, 2012 9:01 PM
6	would like some discussion of participants in the meeting. Informational content was good	Oct 3, 2012 3:57 PM
7	There is not an easy way for delegations to find each other and sit together for various sessions. This is especially important prior to voting. Not sure how to arrange seating--the record attendance helps create this unforeseen problem.	Oct 3, 2012 1:47 PM
8	This one is relatively easy to go to. The spring meetings are sometimes very hard to get to. Would hosting the spring meeting in Chicago, St Louis or Dallas be possible (central, lots of flights, etc)?	Oct 3, 2012 12:00 PM
9	Current foremat is very good	Oct 3, 2012 11:48 AM
10	We need to be able to sit together as Delegations. I have no easy way to contact and gather my group in a timely fashion at the meeting. Forced fragmentation does not foster communication. Other venues are available for mixing. A Sunday morning half-day should be considered to provide updates and interactions with reference committees etc. Too much of the meeting is pro-forma reports from leadership. Delegate participation gets short shrift.	Oct 3, 2012 11:10 AM
11	continued interaction between RF and HOD	Oct 3, 2012 10:06 AM
12	Have the tables organized by state. Have a state of the state update, so other delegates can learn from the neighbor colleagues. Discuss how each state is effectively organizing its members. If not, change this. Provide a clear purpose.	Oct 3, 2012 7:34 AM
13	Keep it going as is	Sep 29, 2012 9:53 AM
14	keep up the good work!	Sep 28, 2012 12:09 PM
15	keep it up!!!	Sep 28, 2012 9:27 AM
16	Less speaking to generalities and more targeted presentations. Fewer speeches, more written material, and more interaction with the HOD - being lectured to does not equate to action when one returns home.	Sep 27, 2012 8:45 AM
17	Increase opportunities for delegates to get involved in extra-meeting work.	Sep 26, 2012 7:57 PM
18	if we can know the agenda before we can prepare to some extent	Sep 26, 2012 1:10 PM
19	They are very good--MUCH IMPROVED	Sep 26, 2012 1:00 PM

**Page 3, Q11. Please list any ideas or suggestions for improving future HOD meetings.**

20	1. There was a lot of discussion about the practice pathways as if we should know about what that was - I had never heard of it and felt a bit lost as to why it was done and what I was supposed to get out of it. 2. Limit time with RF - some time is valuable and the receptions are nice but I would like more time, especially in the morning - to discuss and tackle our issues. There is a lot of time devoted to awards and this seems to be of marginal benefit.	Sep 26, 2012 12:58 PM

22	Have a dinner available that night for further networking (for those who want to attend.)	Sep 26, 2012 11:28 AM
23	I think we spend too much time on ceremonial and awards functions in the morning session. While attention is high I think we should be working on the real business. The other stuff might be a nice way to end the day.	Sep 26, 2012 11:19 AM
24	better noon/lunch speaker for HOD. Something more up beat, optimistic. I am sick of hearing bad news.	Sep 26, 2012 10:14 AM
25	Would appreciate a live teleconference option for those unable to attend two HOD meetings each year.	Sep 26, 2012 9:50 AM
26	I still feel that it is rushed and more time is needed, or the allotted time could be used more efficiently, i.e. sessions often end early. Also still unclear on how to accomplish our goals of Transformation. Presentations/panels are good but they still lack teeth, no action plan or "homework". I still am leaving uncertain on what to do and how.	Sep 26, 2012 9:35 AM

6	Glad Lab Utilization Mgt was on the Annual Meeting this year. Might be worthy of an HOD presentation. We community pathologists are being tasked to actively manage lab utilization - templates and tools are rudimentary to do this effectively.	Oct 3, 2012 11:10 AM
7	This was a great HOD meeting. I found it very informative and a wonderful opportunity to interact with other pathologists. Thank you so much. I could not stay for the educational sessions as one of my partners was attending.	Oct 3, 2012 10:15 AM
