

## Practice Management Directory

**Organization:** C4 Database Management, Inc.

### Description of Organization’s Services

We learned through many sessions with administrators who all thought that their IT department assured this wealth of patient data was carefully managed. It was just the opposite: the patient information was woefully threatened by unmonitored backup systems that could fail.

For healthcare administrators, three concerns that our services address are:

- Managing their annual CAP IT inspection sections of: Data Retrieval and Preservation System Security and Patient Data requirements
- Testing to assure that patient databases can actually be fully restored
- Full DBA services priced to accommodate all size laboratories

### About the Organization:

<i>Established</i>	<i>Number of FTEs</i>	<i>Listed in this Directory since</i>
2012	2	2015
<i>Started working with pathology practices in</i>	<i>Number of pathology practices with whom firm is currently working</i>	<i>Number of pathology practices with whom the firm has worked</i>
1997	20+	75+
