Organization: Vachette Pathology

Description of Organization’s Services

Vachette Pathology is a pathology and laboratory revenue cycle auditing and management firm. We are not a billing agency and do not perform billing. Instead we help manage the revenue cycle for optimum performance with your team or outside billing personnel. We assist your billing team to collect efficiently and effectively; we renegotiate managed care contracts and help with the revenue aspects of your business.

Vachette’s mission is to maximize reimbursement for our clients with the highest level of customer service through a highly motivated, skilled, and enthusiastic workforce. We do this by understanding, meeting, and exceeding our clients’ needs and requirements. We maintain the loyalty of our clients by holding ourselves accountable for all our actions.

About the Organization:
